

Week 5 - Monarch

I'm not reading anything.

Every time there's a (1)_____ spike,

it fades away
like it's been absorbed by something.

Yeah. Or eaten.

What?
It's not like we haven't seen it before.

These things think the "A"
in A-bomb (2)_____ for "appetizer."

Come on, time for some science shit.

There you go.

All right. Last charge is set.

I think we need more (3)_____.

These are supposed
to be set at 50 meters apart.

That was for the larger ones.
The 3.8 megajoules.

- Well, that's what we (4)_____.
- No, these are the 2.1's.

If you want to measure greater depth,
we get maximum overlap at 30 meters.

Only when we (5)_____ the diamond
grid.

- This was a circular dispersal.
- Fire in the (6)_____.

Wait. Is that-- Wait.

- Voids.
- What?

Chambers. Deep in the bedrock.

There's something (7)_____ there.

Those are off the charts.

Hell yeah, they are.

This is what we've been (8)_____ for.

Yes.

This is it.

**brought down hole looking small
spacing stand use**
